HID® TripTick™ Technology

For Fast, Intuitive Ticket Reading and Contactless Payments

HID ticket readers and validators **featuring TripTick technology, read…**

...all ticket types

...presented in any orientation

...with a contactless EMV payment option

**…via a single device**

0 9 8 7 6 5 4 3 2 1 9 8 7 6 5

Supports Multiple Ticketing Technologies *in One Reader*

RFID/NFC smart cards including MIFARE® (Classic®, Ultralight®, DESFire®, Plus®) and regional ticketing technologies, such as Calypso®

Contactless EMV (Level 1 and Level 2) with PCI (Payment Card Industry) compliance

Barcodes including 1D/2D, PDF417 and linear symbologies

Reliable Ticket Reading
From Any Orientation

TripTick's optimized optical imaging ensures reliable, lightning-fast reading of barcode tickets when presented in **any orientation** and at **multiple angles.**
