PLR Distribution Pty (Ltd) is a dynamic company that specializes in providing life-saving technology to passengers around the world. The company has been sustained by a specialist heritage spanning over 30 years, and its products **Safe-T-Punch™** and **EVOPUNCH** are world-leading technologies that break glass and save lives. The reduction in road fatalities is important to everybody and is echoed by the latest UN ECE Directive and Regulations.

PLR Distribution Pty (Ltd) along with its network of international distributors, provides devices that enable the regulations and improve the lives of ordinary people. The quality of all our products is a necessity, and our matured **ISO 9001: 2015** Quality Management System ensures suitability, adequacy, and effectiveness. Our recent vertical integration of manufacturing has allowed us to further refine our QMS, with our target for **ISO 9001: 2015** certification set as August 2024. This will be our 11th year of certification.

All **Safe-T-Punch™** products, such as the **STP50P** and **STP40D**, provide suitable, adequate, and effective solutions for creating the very best emergency windows. Our devices are state-of-the-art, capable of saving lives and scientifically designed to serve everyone from young to old.

We design and manufacture safety equipment, and our flagship product, **Safe-T-Punch™** was first patented in 1991 by Ivan de Villiers Le Roux who is currently the Technical Director of **PLR Distribution Pty (Ltd)**. Ivan has been summoned to testify as a technical expert in the South African Courts and has influenced many governments to introduce regulations and industry best practices. He was also directly involved in the introduction of **UN ECE R107** as the operating standard for the South African passenger transport industry.

From humble beginnings and years of refinement, scientific evaluation and market development, **Safe-T-Punch™** has grown into a globally accepted and used technology, that serves billions of passengers on a daily basis. **PLR Distribution Pty (Ltd)** continually strives to reduce its carbon footprint and embraces and abides by the EU's new C BAM initiatives.

PLR Distribution Pty (Ltd) supports the Women in Transport initiative and celebrates their value as curators of passenger safety. Our Director, Pia Le Roux, along with 45% of our **Safe-T-Punch™** team are women. We are a company that recognises and values their contribution.

Safe-T-Punch™ has won many awards, including the SABS Design Institute Awards 2001, the SABS Design Institute Chairman's Award for Design Excellence, and the Design Institute of South Africa 2001 award as a product that improves the lives of ordinary people.

Safe-T-Punch™ products have found valuable use in most modes of transport, including buses, trains, trams, boats, buildings, machinery and many more. **Safe-T-Punch™** creates new opportunities for safety improvements that were previously not possible.

Our head office and production facility is in Johannesburg, South Africa where we ship our products to any global destination required. Our **Safe-T-Punch™** life-saving products are available through distributors in Canada, the UK, New Zealand, Turkey, Spain, Finland and Norway.

We ask the world to recognize the importance of caring about the well-being of people wherever they may find themselves by using **Safe-T-Punch™** fitted emergency escape windows wherever they can save a life.

To find us, visit our website www.safe-t-punch.co.za or join our **Safe-T-Punch™** LinkedIn community. We actively participate in international trade shows and would love to meet you in person. Our local area agents are ready to assist you in your territory.

SAFE-T-PUNCH™
BREAK GLASS – SAVE LIVES
