

Providing better payment solutions for transit operators

Today, transit operators need a payment gateway partner that allows passengers to pay how they want, be that by card, mobile, in-app or online.

NMI has been at the forefront of payments innovation in transit for over ten years. We provide major transit ticketing providers with gateway and secure tokenization services for both traditional ticket sales and contactless open-loop fare collection systems.

It's a single platform that supports self-service kiosks and terminals, mobile acceptance and online pre-booking.

One platform, multiple payment options

Support for all major UK/EU/US acquirers

Ultra-high reliability and PCI P2PE certified security

Wide range of supported payment devices

SDKs and APIs for major programming languages

Tokenization across multiple payment channels

Put our experience to work for you

Providing payment flexibility while remaining compliant with the latest payment directives is becoming increasingly difficult and complex. NMI technology powers innovation, opens up opportunity and provides secure technology to help businesses succeed.
