SUPERIOR SOLUTIONS FOR
HEAVY DUTY VEHICLE LIFTING

Stertil-Koni provides customized and technically advanced solutions engineered for heavy duty requirements of customers throughout the world, including the best possible service from skilled local partners. These superior solutions are conceived, developed and implemented by a team of professional specialists with unique expertise. In-house production and a global organization with local partners make us the world's number one in heavy duty vehicle lifting.

MAXIMUM FLEXIBILITY

A COMPLETE RANGE OF HEAVY DUTY LIFTING SOLUTIONS

As a first step, our team of experts will assess your workshop requirements and recommend a vehicle lift that meets your needs. Further, our lifts come with a comprehensive range of adapters and accessories to additionally support your maintenance facility.

WORLD CLASS MOBILE COLUMN LIFTS

Mobile Column Lifts from Stertil-Koni allow you to safely lift a wide range of heavy duty vehicles quickly and efficiently. These lifts are indeed portable, can be positioned and used by a single operator and what's more, they are available in wireless models - adding convenience and enhancing safety, as no interconnecting communications cables are required. All Mobile Column Lifts come with a touch screen control console, superior mechanical locking system and dependable hydraulic technology.

EARTHLIFT

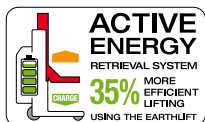

Capacity 18,500 / 22,000 lbs. per column

sterfil **KONI** EARTH LIFT 

Active Energy Retrieval (AER) Up to 35% more lifting efficiency

- Captures regenerative power and provides more lifting cycles through our innovative AER System
- Maximum workshop efficiency: Additional lifting cycles without recharging
- 98% recyclable components and bio-fluid for hydraulics
- Intuitive full-color 7" touch screen ebright control and multiple programmable features
- Multiple set configurations possible for large workshops -- accommodating up to 32 columns in a single set
- Extremely accurate vehicle positioning
